

## Academic Regulations: Postgraduate 20 Credit

<b>1.</b>	<b>Introduction</b>
<p>These Academic Regulations set out the rules which govern how courses are structured and what students need to do to successfully complete their studies.</p>	
1.1.1	Academic Regulations must be approved by Academic Board and will be reviewed annually by them or a designated subcommittee.
1.1.2	Where a course has any additional or alternative rules set by a Professional Statutory and Regulatory Body (PSRB) or where there are specific legal requirements these will take priority over the University's Academic Regulations.
1.1.3	All awards offered by the University must be approved by the Board of Governors and listed in <a href="#">University Bye-Law No. 5</a> before they can be advertised.
1.1.4	<p>Any exemptions to these regulations must be formally approved by Academic Board or a designated subcommittee. A list of all approved exemptions will be held centrally.</p> <p>Exemptions will:</p> <ul style="list-style-type: none"> <li>• apply throughout the period of validation.</li> <li>• be listed in the Course Specification</li> <li>• be published in the Course Guide.</li> </ul>
1.1.5	In very exceptional circumstances, the Chair of the Academic Board may agree to vary the provisions of the Academic Regulations. This may include the approval of alternative forms of assessment, the variation of the academic calendar and the continuation of students with deferred assessments.
<b>1.2</b>	<b>Course Framework</b>
<p>The course framework describes how courses will be structured, delivered, and monitored. Within this regulatory framework:</p>	
1.2.1	Courses will meet the academic standards set out in the <a href="#">Framework for Higher Education Qualifications in England, Wales and Northern Ireland (FHEQ) (QAA, 2014)</a> and where relevant, a PSRB.
1.2.2	Courses will use <a href="#">the Credit Accumulation and Transfer System (CATS)</a> which refers to notional learning hours and includes formal contact, assessment, guided study and independent learning. The University also recognises the <a href="#">European Credit Transfer System (ECTS)</a> .
1.2.3	Courses will be taught in English, unless the course is validated to teach students other languages.
1.2.4	Courses will be designed to ensure the effective assessment of technical proficiency in the English language, in a manner relevant to the level and content of the course, except where the course is assessing a language which is not English or could be demonstrated to be in contravention of the requirements of the Equality Act 2020.
1.2.5	Courses will have a Course Specification and a Course Academic Calendar which must be approved through the Course Approval process and published to students. This includes the

1.2.6	<p>Courses will be studied over one or more academic years with each year divided into semesters. The University will publish a University Academic Calendar annually which will include dates for the current academic year and the projected calendars for the next three years (these may be subject to change). Where a course has approval for a non-standard calendar, for example where a non-standard calendar is approved for collaborative or professional courses, a calendar specific to the course and location of delivery will be provided to students.</p>
1.2.7	<p>Courses will be approved, through the Course Approval process, to be delivered in one or more of the following Modes of Study:</p> <ul style="list-style-type: none"> <li>• Full time – consisting of 120 taught credits and 60 credits of independent study, taught over three semesters.</li> <li>• Part time – consisting of up to 100 credits per academic year.</li> </ul>

The University uses grading schemes for recording the results of summative assessment and overall module results. These are aligned to the <a href="#">University Level and Mark Descriptors</a> .	
4.2.1	All modules will have one or more summative assessments. Collectively the assessments must allow the student to demonstrate that they have met the module learning outcomes. Assessments will be: <ol style="list-style-type: none"> <li>1) Elements – Elements will be grouped. Students will not have to achieve a passing grade in each element but must achieve a passing grade overall for the group of elements to demonstrate that the learning outcomes have been met.</li> <li>2) Components – all components must be passed in order to pass the module overall and to demonstrate that the learning outcomes have been met. They may include elements, some of which can be failed without meaning that the learning outcomes have not been met.</li> </ol>
4.2.2	Module Guides will clearly specify assessment components, and their elements where these are included, and how the overall grade will be calculated.

## Academic Regulations: Postgraduate 20 Credit

4.2.3	Where a summative assessment is made up of more than one grade the average overall grade will be calculated to a maximum of two decimal points.																																	
4.2.4	Summative assessment marks will be added together (according to their weighting) to give an overall module grade.																																	
4.2.5	Grades will be calculated to a maximum of two decimal points and the final overall grades will be rounded up or down as follows: <ul style="list-style-type: none"> <li>• 0.50 – 0.99 – rounded up</li> <li>• 0.01– 0.49 – rounded down</li> </ul>																																	
4.2.6	Postgraduate summative assessment and overall module results will be recorded using the following percentage grade scheme:

<b>4.5</b>	<b>Resits and Retakes</b>
<p>A resit provides a student with the opportunity to take an assessment or examination again if they did not achieve an overall passing grade for the module.</p> <p>A retake provides a student with the opportunity to study a whole module again when all resit opportunities have been exhausted.</p>	
4.5.1	<p>Students who do not achieve a passing grade in a component or group of elements will be permitted a single resit attempt on the failed assessment(s).</p> <p>Students who have achieved an overall passing grade for a group of elements will not be permitted to resit any failed individual elements.</p>
4.5.2	Resit attempts must be taken at the first opportunity within the same academic year that the module was studied, unless valid extenuating circumstances were approved during the resit period.
4.5.3	Students who successfully pass a resit will have their resit assessment grade capped at 50%.
4.5.4	Students who have exhausted all available resit opportunities without achieving an overall pass grade will be deemed to have failed the module. Students who fail a module will be permitted to retake it, subject to the relevant continuation and progression regulations (Section 5 of these regulations).
4.5.5	The University cannot guarantee that all modules will be available to be taken again. Where a module is no longer available the student will be required to take an alternative replacement module.
4.5.6	Students who fail an option module may choose to study an alternative module from the options listed in the Course Guide rather than retake the module they have failed.
4.5.7	Students who successfully pass a module they have retaken, or an alternative/replacement module will have their maximum overall module grade limited to 50%.
4.5.8	Students are not permitted to resit assessments or retake modules in which they have achieved a passing grade unless this has been agreed through the Academic Appeal or Extenuating Circumstances procedures.
